¹ The original group consists of the 29 HBCUs also surveyed in 1988, 1990, and 1992; the expanded group is the 1992 and 1994 population of all 70 research-performing HE

² Two of the HBCUs were determined to be out-of-scope since they had no S&E research space; data are weighted to 28 in the original group and 28 in the expanded g

NOTES: Findings are limited to projects with estimated total cost at completion of \$100,000 or more for research space. Estimates are prorated to reflect research comp Because of rounding, components may not add to totals.

Dollar amounts are reported in current dollars, unadjusted for inflation. See Table A-5 in the Technical Notes for the inflation adjustment used in Volume I of this report.
